

THINGS TO CONSIDER BEFORE ORGANIZING SHOES

- ☐ How many pairs you actually wear regularly

- ☐ Available floor, wall, door, and under-furniture space

- ☐ Where you naturally remove and put on shoes

- ☐ Different storage needs for boots, sneakers, heels, and flats

- ☐ Whether you prefer open or concealed storage

- ☐ How easily everyone can return shoes after wearing them

- ☐ Space needed for seasonal footwear

- ☐ Whether the system can handle future shoe purchases
