

QUICK SPACE AUDIT CHECKLIST

- 
- ☐ Check whether the six inches behind doors could hold hooks, racks, or slim hanging organizers.

 - ☐ Look about twelve inches below the ceiling for space suitable for high shelves or rarely used items.

 - ☐ Scan underneath beds, sofas, cabinets, and other raised furniture for hidden storage opportunities.

 - ☐ Check gaps between furniture pieces or between furniture legs for baskets, bins, or narrow storage units.

 - ☐ Look at empty wall areas and cabinet doors that could support hooks, shelves, or hanging organizers.
